#PLANET FIRST

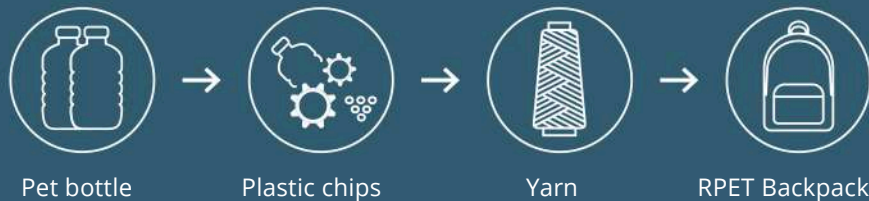

At Miquelrius, we are aware of the importance of our planet, therefore, we are committed to taking care of and preserving it. With our actions, we wish to contribute to a world that is more sustainable and respectful with the environment.

To help preserve our planet, it is indispensable for society to be aware of this and for children to acquire sustainable habits from a young age.

RECYCLED POLYESTER - RPET

In this catalogue we present a wide range of textile products that are made of recycled polyester (RPET).

We join the fight against excessive plastic in the oceans, recycling single-use products that take hundreds of year to degrade.

Pet bottle

Plastic chips

Yarn

RPET Backpack

FSC

All the stationery products in this catalogue are certified with the FSC (Forest Stewardship Council) logo, a nongovernmental accreditation and certification organisation that promotes appropriate environmental management, socially beneficial and economically viable of the world's forests.

In this manner, we can guarantee sustainable consumption of paper in our products.

Learn about us

We are a company with **more than 180 years of experience** in the manufacture of stationery products. We pioneered the introduction of products who have changed the way you organise your time and tasks: the Integral system of ring diaries and our already classic Notebook with micro-perforated sheets with coloured subsections.

Today, **we continue betting on innovation** while relying on the same 5 principles:

Design. We connect fashion and design through our pieces of stationery, diaries, writing items, school accessories, and office and desktop accessories as well as a whole universe of gift products.

Adaptation. We evolve with our environment, creating products for all kinds of likes, activities and age groups.

Quality. Manufacturing high quality products using the best materials.

Responsibility. We look after our environment and guarantee the quality of our products and services. We have the widest range of recycled and recyclable notebooks on the market, meeting the needs of an increasingly eco-conscious world. We have also joined forces to fight against excess plastic in the oceans by each year expanding our range of environmentally-friendly products made from recycled polyester material from PET (RPET) plastic bottles.

We are integrated in the business group **APLI** and together we respond to the needs of our clients; with national and international product shipment coverage. Our corporate strategy, based on quality, innovation and service as well as commitment to people and the environment, has led us to be present in more than:

80
